

While I do not like the idea of tolls being re-established in CT, I also do not like the condition of most of our roads, especially in Northeast CT.

They are not in good shape right now, and a lot of work needs to take place, especially after this winter. If tolls are the only way to get road repaired, somewhere besides the western and central parts of the state, then I would be in favor of reinstating tolls for a couple of years. But I would want to make sure that every dime collected actually goes back into road and bridge repair, and again.....not just for the west and central parts of the state.

We pay taxes over here in the Eastern part of the state too....

Thank you .
